## DesignStudio Create a Card Design

### Create a Card Design with:

- Background (image or shape element and properties)
- Logo (image or dynamic image element and properties)
- Shapes (shape element and properties)
- Text & Dynamic Data (Text element and properties)
- Passport Photo & Signature (Passport Photo element and Signature element and properties)
- Barcodes (Barcode & 2D Barcode element and properties)
- Magstripe (Card Setting & Element properties)

### FAQ DesignStudio

- What is Dynamic Data?
- How do I add Dynamic Data to my Design?
- How do I add a Specialty Layers to my Design?
- How do I add a specific barcode or a QR-code to my Design?
- Can I change my card settings?
- How do I make a shape transparent?
- Can I use specific colors like RGB codes?

## DesignStudio Assignments

### DesignStudio Assignment 1.

Use the source material from the Assignment1 Folder.

Create a Card Design in CardStudio 2.0.

- Step 1. Start a new Card Design in the DesignStudio
- Step 2. Create a double-sided color, portrait CR80 card.
- Step 3. Add a blue background on the front and the back.
- Step 4. Add a logo at the top of the card on the front of the card.
- Step 5. Add two white semitransparent shapes on the front and the back of the card.
- Step 6. Create two Dynamic Fields:
  - Firstname
  - Lastname
- Step 7. Add a textbox to the front of the card. Type: "Name:" as static text and then add the two Dynamic Fields {Firstname} & {Lastname} behind the Name.
- Step 8. Add a Passport Photo to the front of the card.
- Step 9. Add a QR-code to the back of the card.
- Step 10. Save the design as "Assignment 1"

## PrintStudio Assignments

### PrintStudio Assignment 4.

Use the Excel file and photos from the Assignment4 Folder.

Create a new Project with an Excel-file and print a card with passport photo using the card design made in Assignment 1. and 2. for the following 3 persons:

- ID-number: 11002 with Design from Assignment 1.
- ID-number: 11008 with Design from Assignment 2.
- ID-number: 11011 with Design from Assignment 2.

# CardStudio™ 2.0 Basic Support

## PrintStudio Assignments

### PrintStudio Assignment 3.

Use the source material from the Assignment3 Folder.

Create a new Project in PrintStudio.

- Step 1. Create a new project, define the structure of a new empty project.
- Step 2. Keep the default fields. Add the ID as a unique field with auto-incrementing, add company as a text field with the default value "Zebra", add department as an Option list and add 3 departments to the list.
- Step 3. Only check the Passport photo box and select the 3 x 4 ratio.
- Step 4. Keep the default setup for the Detail and Gallery view.
- Step 5. Keep the default triggers.
- Step 6. Create the project.
- Step 7. Add a record manually, upload photo or capture a photo with the webcam.
- Step 8. Add the Card Design "Assignment 1" to the project and link the design to the record you created.
- Step 9. Print the Card.
