Care ID
Care for accurate identity

CARE FOR ACCURATE IDENTITY
Creating a save environment has become a requirement

Because of big changes in health care system and an increasing demand for care, the need for home care is getting higher each year. With this high need the request for identification of employees at the home of clients and creating a save environment has become a requirement.

Care ID creates a clear and valid employee badge that can be used by home care providers to identify and if needed get access on location.

With the CardsOnline Care ID solution you can prevent unwanted, sometimes dangerous situations, like a person impersonating a professional care taker and gaining unauthorized access to clients housing.

CardsOnline Care ID takes care of the complex and sometimes long process, issuing ID cards much faster and easier to employees.

CARDSONLINE CARE ID
Ideal for home care

CardsOnline Care ID is the online solution that allows cost efficient production of ID cards for all employees. With this online application you can design your own card and print on a local printer directly from the Cloud.

Care staff have secure access to their card information anywhere and everywhere using smartphone, tablet or PC. The care employees can manage their own information. They can block their card when the id card gets lost, request a new card or upload a photo or diploma, it is all possible.

✓ Made to use in the Care industry

✓ Efficient for small and large organisations

✓ Integrate with your HR–system

✓ Low costs per card

✓ Online access and management of card holders' data

✓ Everything save in the Cloud
