

CARDSONLINE

College ID

One card solution

ONE CARD SOLUTION

Secure, efficient and easy

In response to the growing need for an efficient and affordable management of ID cards and all card related activities, ScreenCheck offers CardsOnline College ID, a card management system that measures up to the increasing demand to issue and manage multifunctional smart cards in an easy, controlled and cost efficient way.

College ID provides a solution to design, produce and manage cards at an unlimited number of locations and users using a single online system. Advanced password access ensures protection of both users and data in the entire system.

Managing student and teacher id cards becomes effortless with CardsOnline. Schedule automatic expiration, re-printing of cards or manage lost cards. Using only one system for all functionalities, you save both time and cost, while simplifying your administration.

The College ID solution takes a central role in the card production and -management of your school district and will reduce costs at the same time.

NEWS ID SOLUTIONS

Why the need for College ID

Preferred names highlight true value of identification

"We often talk about the value of the campus card, be it providing access to buildings, making payments or enabling admittance to the many on-campus services that make college life tick."

Miami campus cards stifle fake ID use

"This semester marks the first time that Miami of Ohio has printed cardholder birth dates on its student IDs since 2011, and a few short months later the decision seems to be paying dividends."

University steps up dorm visitor management

"The guest will be required to produce an official ID and the host will show their student ID at which point both identities will be placed together in the system."

London transit issues smart student bus passes

"Fanshawe College students were the first to use the new smart card technology embedded in their student IDs, enabling them to simply tap a terminal to pay their fare."

CARDSONLINE COLLEGE ID

Setup for the education market

CardsOnline College ID is the online solution for cost efficient ID card production and management for all students and employees. Design and print with your own local card printers directly from the Cloud.

Students and teachers have access to their own card information anytime anywhere using a smartphone, tablet or PC. Card holders login with credentials and manage their data and card. For example blocking their card when it is lost, requesting a new card or uploading a new passport photo.

- ✓ Create a card as a key for access, a card for spending and a library card all-in-one.
- ✓ Suited for small and large organisations
- ✓ Integrates completely with a student administration and HR-system
- ✓ Low costs per card
- ✓ Online access and management of card holders data
- ✓ Everything safe in de Cloud

CREATE PROFESSIONAL CARD DESIGNS

Designs can be easily adjusted to your brand

CardsOnline College ID is setup for the education market and has been provided with standard card design templates that can be adjusted to your own branding or create your own card design from start to finish.

Logo

Add branding so it is clear the card holder is from your college.

Passport photo

Include a student or employee picture to prevent unauthorized use of the card.

Card orientation

Set your card design orientation to landscape or portrait.

Barcode

Choose from a wide selection of barcodes or QR codes to add to the card design.

Card production

Print single or double sided on PVC cards. Encode cards using MAG-stripe, Mifare Classic, Mifare Plus or DESfire.

Card holders' data

Add dynamic data to the card design, such as the card holders' first and last name, date of birth and the student ID.
