K-12 ID

Create a safe place to learn

CREATE A SAFE PLACE TO LEARN

Secure, efficient and easy

Times are changing, creating a safe and secure teach and learn environment has become a necessity.

In response to the growing need for an efficient and affordable management of ID cards and all card related activities, ScreenCheck offers CardsOnline K-12 ID.

K-12 ID provides a solution to design, produce and manage cards at an unlimited number of locations and users using a single online system. Advanced password access ensures protection of both users and data in the entire system.

Managing student and teacher id cards becomes effortless with CardsOnline. Schedule automatic expiration, re-printing of cards or manage lost cards. Using only one system for all functionalities, you save both time and cost, while simplifying your administration.

The K-12 ID solution takes a central role in the card production and -management of your school district and will reduce costs at the same time.

NEWS K-12 SECURITY

The need for ID Solutions

Building a Better Campaign for School Security

"It's about time that our nation begins to focus more solidly on the security and safety of our schools."

<http://www.securitymagazine.com/articles/86378-profile-in-excellence-building-a-better-campaign-for-school-security>

Electronic Access Control Basics for School Districts

"Controlling access to school sites and protecting students and staff are one of the most important elements of any access control system within a school district security plan."

<http://www.securitymagazine.com/articles/86403-electronic-access-control-basics-for-school-districts>

School district implements parent ID system

"Parents have been enrolling themselves into a the new ID system in an effort to more accurately vet visitors to the schools."

<http://www.cr80news.com/news-item/school-district-implements-parent-id-system/>

Blended School Security

"I see many K-12 schools and districts spending money on security — without achieving security or protecting students,"

<http://webspm.com/articles/2015/06/01/school-security.aspx>

CARDSONLINE K-12 ID

Setup for the education market

CardsOnline K-12 ID is the online solution for cost efficient ID card production and management for all students and teachers. Design and print with your own local card printers directly from the Cloud.

Students and teachers have access to their own card information anytime anywhere using a smartphone, tablet or PC. Card holders login with credentials and manage their data and card. For example blocking their card when it is lost, requesting a new card or uploading a new passport photo.

- ✓ Create a card as a key for access, a card for spending and a library card all-in-one.
- ✓ Suited for small and large organisations
- ✓ Integrates completely with a student administration and HR-system
- ✓ Low costs per card
- ✓ Online access and management of card holders data
- ✓ Everything stored safely in de Cloud

CREATE PROFESSIONAL CARD DESIGNS

Designs can be easily adjusted to your brand

CardsOnline K-12 ID is setup for the education market and has been provided with standard card design templates that can be adjusted to your own branding or create your own card design from start to finish.

Logo

Add branding so it is clear the card holder is from your college.

Passport photo

Include a student or employee picture to prevent unauthorized use of the card.

Card orientation

Set your card design orientation to landscape or portrait.

Barcode

Choose from a wide selection of barcodes or QR codes to add to the card design.

Card production

Print single or double sided on PVC cards. Encode cards using MAG-stripe, Mifare Classic, Mifare Plus or DESfire.

Card holders' data

Add dynamic data to the card design, such as the card holders' first and last name, date of birth and the student ID.
