CardsOnline
# Active ID App

Your Mobile Identity

CARDSONLINE ACTIVE ID APP

CardsOnline offers a complete card management system with card design, data management, card production and now with a focus on the issuance of Digital IDs the Active ID App.

Active ID App is developed for Apple & Android mobile devices, holds Active IDs and has an active connection with CardsOnline.

Administrators can design, manage, and issue Active IDs in CardsOnline to card holders using the data manager. The card holder can be alerted on the new ID by a push message from the app. The card holder can accept and open their Active ID to use as Employee Badge, Student ID, Member ID, or Temporary ID.

An active connection with CardsOnline keeps your IDs up-to-date

Fully Localized

The Active ID App is fully localized, the application uses the language of the cardholders' device.

Up-to-date

An Active ID has a secure active connection with CardsOnline and is always up to date. Changes to data can be pushed immediately.

Brand Identity

Your brand identity is what makes you instantly recognizable to your cardholders. Use your own brand with the Active ID App and its emails. Add your own logo and brand colors.
Design & Issue

Use the CardsOnline Card Designer to create a digital card design for mobile to use as Active ID. Push Active IDs via the data manager to the cardholders' Active ID App, cardholders receive a notice email.
Download the Active ID App

Your Active ID App with your own brand design will be available in the Google Play Store or the Apple App Store for your card holders to download. When an Active ID is issued, the card holder receives a notification email with instructions on how to download the app and use their Active ID.

The Menu

The Active ID App menu offers navigation to email verification, new passes, account information, settings and the Active passes available for the cardholders to use as identification.

Active Passes

Active passes shows the availabe Active IDs issued to the cardholder by a CardsOnline Administrator. They can swipe through the different types of passes, like their employee ID and an access invite for a company event for example.

"Use your brand style with the Active ID emails & App"
